Education

Rutgers University, New Brunswick, New Jersey
Bachelors in Business Analytics and Information Technology (B.A.I.T.), 2017
GPA: 3.48

Experience

Street Solutions, INC. – Business Technology Analyst June 2017 – Current

- Worked on client-support team working with clients and troubleshooting problems
 - Troubleshoot production issues
 - Improved client-specific processes
 - Helped build new configuration (workflows, channels, dashboards, etc.)
- Release Manager
 - Head of releasing new code base to internal environments for testing
 - Head of deploying new code-base to clients and rolling out patches to clients
- Created tools to help reduce the extra work being done by client-support team
 - Created computer application (using C#) to scan images and extract text
 - Created script to run large queries against DB (read from file and put results in csv file)
 - Created Python script to search a given directory for a filename
- Created PowerShell scripts to query SQL Server and script to check the database backup to AWS

ING Financial Services, LLC – Information Security Intern June 2016 – August 2016

- Looked at server log for ransomware attack to see where attack originated and what servers were affected by it. As a result, firewall rules/policy and anti-virus system were updated.
- Tested password policies for 100+ applications to see if they meet the ING minimum standards.
- Made BIA and ASR reports for VP of ING Financial Services, LLC.

IT Trailblazers – Business/Data Analyst Intern June 2015 – August 2015

Reports:

- Used JobDiva to pull in raw data and used Microsoft Excel and Google Sheets to visualize it.
- Made forecasts for Account Executive for each month using Excel and Google Spreadsheets.
- Made progress reports for Account Executive to see the progress of new recruits compared to others.

Skills

Programming Language	C#, SQL, PowerShell, Java, JavaScript, VB.Net
